We are honored to announce that the International Beads Biennale Hiroshima 2026 will be held.

This milestone has been made possible through the unwavering support of individuals who cherish bead art, as well as the generous cooperation of numerous companies and organizations. We extend our sincerest gratitude to all who have contributed to this endeavor.

Beads have adorned human life across cultures since ancient times, and are believed to have been developed as a means of recognizing social and communal bonds. Perhaps it is for this reason that we feel a profound sense of connection in each carefully crafted beadwork piece, and that we are moved by the love expressed through their vibrant colors and elegant forms.

Through this biennale, the organizing committee earnestly hopes to contribute to the realization of a peaceful and compassionate society, where acts of kindness inspire and multiply.

We remain committed to promoting the beauty and cultural significance of beads to the world, and to ensuring that visitors experience the full depth and appeal of bead art.
